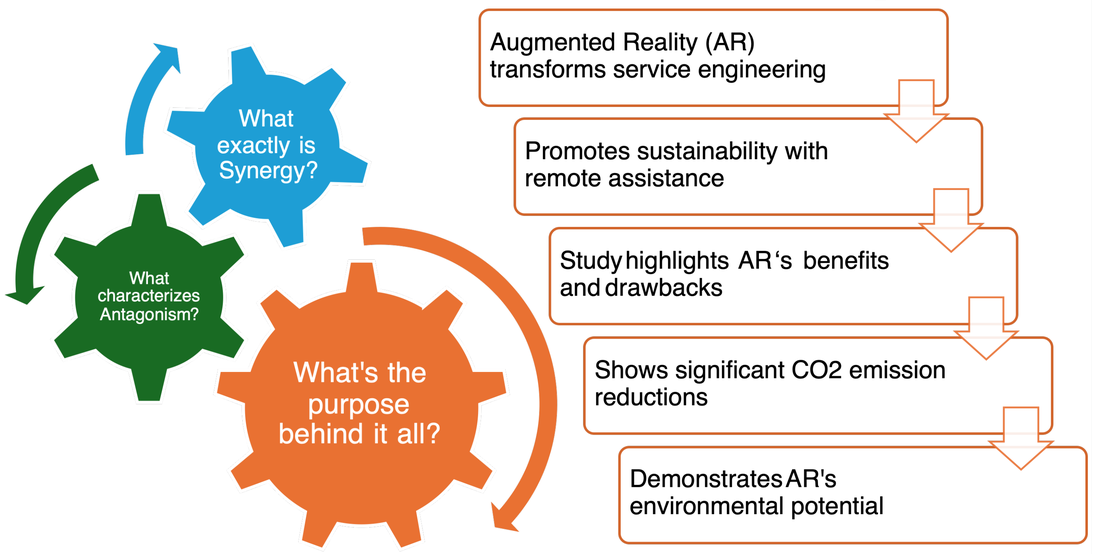
# Products and Services Engineering in Digital Sustainable Era ... synergy or antagonism?

**Arsen Gevorgyan, Kevin Henouille, Dominika Kuchtová, Jiří Mičánek, Abigail Garcia, Kathrin Höfler**

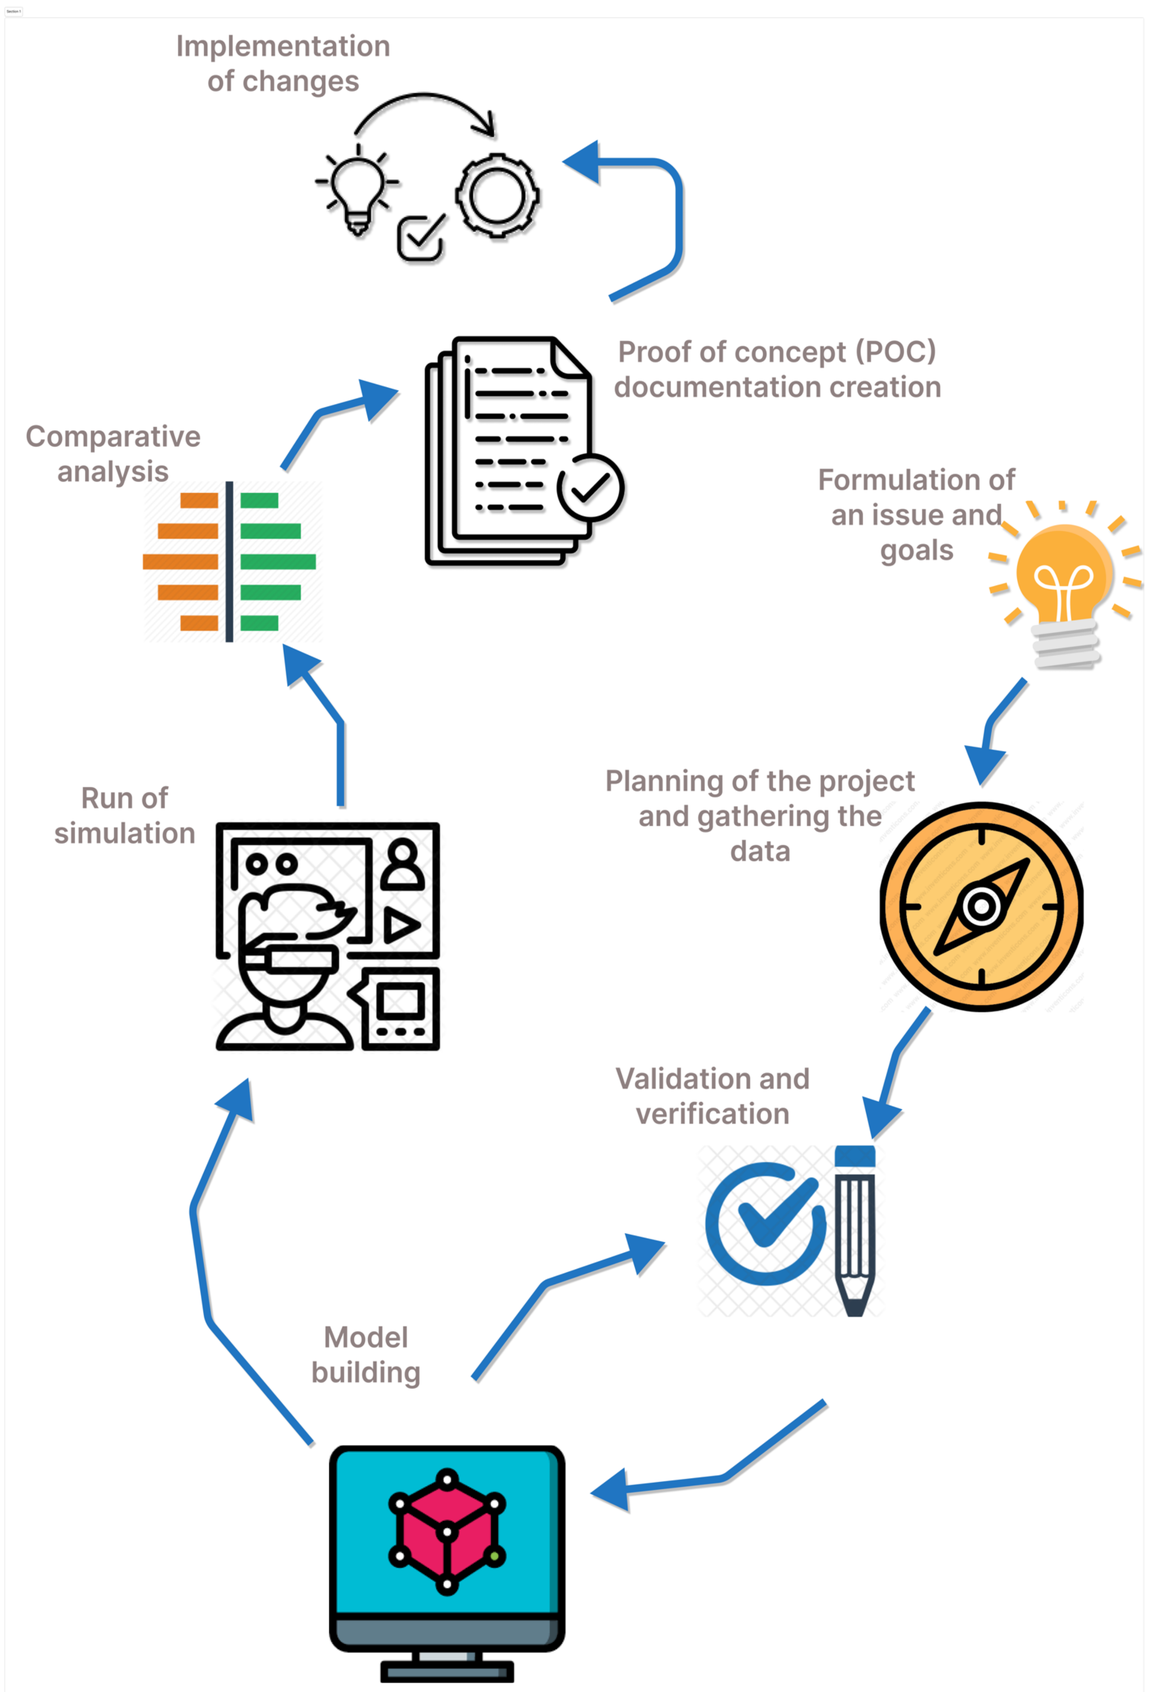
## 1. Initial Situation & Purpose



## 2. Goal Setting

- Digitalization's impact on sustainability explored with AR in service engineering
- Balancing economic benefits and environmental concerns
- Emphasizing automation and lean principles
- Analyzing AR's pros and cons
- Proposed solution merges digitalization and sustainability

## 3. Approach



## 4. Results

- Reduced Carbon Footprint
- Process efficiency gain
- Inefficient resource allocation
